

# HEART-AIR BALLOON

*The sheer size and impact of this dynamic Heart-Air Balloon will send your sales soaring!*

## Materials:

- 1 3' "Hearts & Hearts" Pink Latex Balloon
- 2 6" Pink Latex Hearts
- 2 6" Rose Latex Hearts
- 1 3' White Balloon Net
- Qualatex Balloon Ribbon
- Basket
- Artificial Feather Boa
- Gift or Weight
- Helium:** About 15 cubic feet

## Instructions:

- Fully inflate the 3' balloon with helium. Tie it to a weighted length of Qualatex Balloon Ribbon and drop the weight into the basket.
- Make a four-balloon cluster of 6" hearts. To do this, fully inflate two Pink Hearts with air and tie their necks together to make a pair. Repeat to make a second pair of Rose Hearts. Then, twist the two pairs together, making sure the balloons intersect at the knots.
- Wrap the cluster around the balloon neck or conduit by separating two of the balloons in the cluster, pushing the cluster onto the neck of the 3' balloon, then twisting together the two balloons that were separated.

## TIP

**This design will float for approximately four days but, if treated with Ultra Hi Float balloon flight extender (a cost of about 50 cents extra), this design will float for four to five weeks!**

Estimated Cost: About \$11  
Labor: About 15 Minutes  
Suggested Retail Price: \$45-\$65

- Cut and curl lengths of ribbon and wrap into the center of the four-balloon cluster.
- Cover the 3' balloon with a balloon net, adjusting the net strings until even. Tie the net strings to the basket and cut off the excess.
- Glue the feather boa around the top rim of the basket to hide the mechanics.
- Remove the weighted ribbon and add a gift or weight to the basket.
