

# TWISTED HAUNTED HOUSE

Display this adorable, spooky design in your store window to attract customers and up your profits!

## Materials:

- 1 31" "Haunted House" Microfoil shape
- 8 11" onyx black latex balloons
- 1 11" "Happy Jack" latex balloon
- 1 646Q "Giant Airship" onyx black latex balloon
- 3 160Q lime green latex balloons
- Sand weight
- Helium: About 2.4 cubic feet

## Instructions:

- Helium inflate the 646Q, leaving 1" uninflated, and tie to a sand weight.
- Helium inflate the "Haunted House" balloon and tie to the opposite end of the 646Q.
- Wrap a four-balloon cluster of air-filled 11" onyx black latex balloons — sized to 8" — onto the knot between the 646Q and the weight. Repeat to add a second cluster at the knot between the "Haunted House" and the 646Q.
- Make three curly 160Qs. Wrap the knot of the first 160Q around the center of the top cluster, and wind the rest of the Curly 160Q down around the 646Q. Wrap the knot of the second curly 160Q around the center of the bottom cluster, and wind the 160Q up around the 646Q. Arrange the third 160Q around the bottom four-balloon cluster.

### Optional:

- Under inflate the "Happy Jack" balloon to 6". NOTE: Make sure to push the air into the top of the balloon so the entire face is showing. Tie into the bottom cluster.

Materials cost: About \$5  
 Labor: About 20 minutes  
 Suggested retail price: \$35-\$40
