- 12 5" "Spider Eyes TopPrint" Onyx Black Latex Balloons
- 12 5" Carnival Assortment Latex Balloons
- Adhesive Balloon Tabs
- Qualatex BalloonRibbon
- Clear Packaging Tape
- Monofilament (Fishing) Line

Instructions:

1. Air inflate an 18-inch Microfoil. Attach two adhesive tabs on seam of the left corner, aligning the holes. Reinforce the tabs with clear packaging tape. Repeat to add tabs to the right corner of the balloon.
2. Inflate a 5-inch "Spider Eyes TopPrint" latex and a solid-color latex 3-inch and tie into a pair. Repeat to make a second pair, then wrap the two pairs together to make a cluster. Tie ribbon around the holes in the adhesive tabs, and use the ribbon to tie the cluster onto the tabs.
3. Repeat Step 1 with another Microfoil. Tie a ribbon onto one side and use this to tie the Microfoil into the cluster from the first Microfoil.
4. Repeat Steps 1-3 to continue adding latex clusters and Microfoils until you reach the desired length for your banner.
5. Curl lengths of BalloonRibbon and use them to roll up and tie the necks of each Microfoil.
6. Tie a length of monofilament onto each of the two outer clusters to hang the banner.
